The Lake Las Vegas High Performance Golf Institute Falls Practice Area

The HPGI Falls Practice area consists of four golf holes from the original Tom Weiskopf designed Falls Golf Club that can be used for instruction and/or practice. This facility is five minutes from Reflection Bay Golf Club.

Three greens have been renovated and are used for instruction and practice;

One for putting with green speeds maintained at quick speeds, one for chipping with mowed down collection areas for simulating shots directly around the green surface.

One for longer pitch shots – up to 50 yards and this green has a greenside practice bunker.

One green is on the par three hole that has multiple tee boxes and can play up to 175 yards.

This hole is used for par three practice, short game with multiple length grasses around the green and two bunkers, one with manicured and maintained sand one with less maintained more waste area conditions.

We also have two fairway bunkers that are available for students.

With the four holes we have multiple tee boxes that can be used when working on the driving of the golf ball where students can work on shaping tee shots, working on driving the ball in the fairway, etc.

We have also constructed a 27,000 square foot **PRIVATE** practice tee. This facility will be reserved for golf schools, visiting academies and college teams and private instruction by our two PGA Tour Professional instructors, Craig Barlow and Jeff Gallagher. The Falls practice tee will open October 5, 2019.

At Reflection Bay we have a 100 yard long wedge/short game practice area with multiple targets and we have just completed an indoor hitting / fitting / instruction bay featuring Trackman simulator technology. Our master club fitter – builder, Brendan Bergin traveled the PGA Tour for 15 years working on the clubs of the best players in the world and our on hand shaft selection is the largest in Las Vegas.
